Skills and experience

ABOUT	<p>Hello. Dear, Sir/Madam. I am Ziad, a 10th grader and I am so glad you're reading my resume right now, I have a ton of experience in software development and Robotics and I have a lot projects mentioned below.</p>	
SKILLS	<div><div>1 – Web development</div><div>2 – Desktop apps</div><div>3 – Classic Machine learning</div><div>4 – ML, AI, Robotics</div><div>5 – Arduino Programming</div></div> <div><div>100%</div><div>95%</div><div>80%</div><div>80%</div><div>75%</div></div>	<div>Programming Languages & Frame works</div> <div><div>1 – Python</div><div>2 – Java</div><div>3 – C#</div><div>4 – Django (Python)</div></div> <div><div>100%</div><div>80%</div><div>80%</div><div>100%</div></div>
HOBBIES	<div><div>1 – Reading</div><div>2 – Scientific research (Current job)</div><div>3 – Coding</div></div>	
PERSONAL DATA	<div><div>Date of birth: 26th of December 2005</div><div>Phone: +20 11 013 570 16</div><div>Email: bd119906@gmail.com</div></div>	
PORTFOLIO	https://cszido.github.io/myportfolio	

PROJECTS

1 – ZidTube.com was an educational website that is suitable for almost everyone.

More about project :

https://youtu.be/ckb0BO5cx_A

website url:

"Not available at the moment"

2 – Z-template engine is an engine is an engine that acts as a compiler between your code and html, just like how C works as a compiler between you and the machine code.

<https://youtu.be/ccgXvstGt6Y>

3 – Ziscord is one of the first projects I've ever made when I was only 14 and it's my first social networking website, the website is not currently available but you can get it from here:

<https://aramarket.herokuapp.com/product/1>

4 – WorldLang (The world's first global multilingual programming language) is one of my latest projects, it's a very simple programming language that enables you to write code in your mother tongue and it has a built-in translation service to help you translate your code to whatever language you want.

<https://cszido.github.io/worldlang>

5 – AraMarket is my latest project and it's a simple software projects store to help programmers practice on real projects. :)

<https://store.zidtube.com>

6 – many other projects that are not available on the internet at the moment.
